Brian,

We are recording the webinar and will be glad to share the link as soon as it is live (hopefully within 24-48 hours). Are there any specific questions that folks at the UHRC have? Perhaps, you all could compile a list and we can try to make sure that they are answered in the webinar and if not, to see if we can get them answered elsewhere.

Subject: Re: Upcoming Trainings

I was actually hoping that Enrique would be joining the webinar from the UHRC so that we could all benefit from the information. Sounds like he may be at a management meeting at LAHSA HQ.

Thanks.

Brian

Hi Brian,

Great question. I just looked into it, but was told that because we have a limited number of slots for folks to call-in, this is only available strictly to outreach teams and we're unable to extend the invite to municipal partners at this time.. I was told that a recording of the webinar will be available to view online within the week, so I will be sure to forward that link as soon as it is live.

Apologies,

Can tomorrow's webinar be broadcast at the UHRC? A number of us are interested in the information being presented to outreach teams about COVID-19.

Thanks.

Brian

Hello UHRC partners,

Just wanted to let you know about a couple upcoming trainings that will have us out of the field a little earlier than normal.

Tomorrow from 12pm-1:30pm, DHS' Medical Director of Housing for Health will be hosting a webinar training for all outreach teams in LA County on Covid-19. We would like all our outreach teams to participate in this training, so will be asking them to be back in the office by noon. I apologize for the late notice on this one, but the training was just finalized and scheduled over the weekend, and this is an extremely important one that we don't want our CARE or CARE+ teams to miss.

Next Thursday, 3/19, at 1pm, our teams will be participating in the 63.44 training that Rec and Parks Rangers and the City Attorney's office are providing at Elysian Park.

We also have our final two CPR trainings this month. Those may result in reshuffling which teams are supporting which CARE / CARE+ operations, but the teams that are assigned to support CARE will be available for the full days of those CPR trainings.
